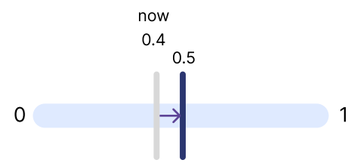
G Set a Goal

🎯 Aiming the metric to be

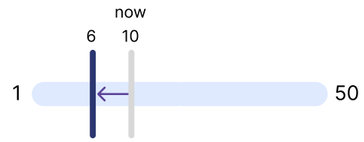
- 20 + %

(Current Value: $100)

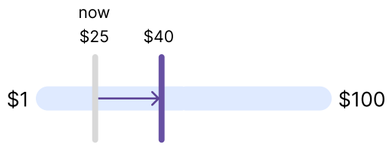
Probability of being active



Expected Number of Orders



Expected Order Value



H Recommend strategies 💡

Suggestions I

- [ ] Add 50 orders with an average value of $40
- [x] Add 1 order each for 20 new visitors with an average value of $45
- [ ] Add 3 orders per active customers

J

- +20 new orders added
- +20 new active customers
- Avg order value increased from $25 → $45 (for new data)
- Total gross value increased by +$900
